

# 205

## F I L A M E N T T A P E

Venture Tape® 205 is a glass filament reinforced tape for light duty strapping, bundling and reinforcing. It has a synthetic rubber resin adhesive with good adhesion to most fiberboard surfaces, and a variety of plastics and metal surfaces.

Application of Venture Tape® 205 is most easily accomplished at room temperature. At lower temperatures approaching 32°F (0°C), the adhesive becomes firm. Once applied, 205 performs well throughout the normal temperature ranges typically encountered in temporary holding applications on construction sites.

### Product Construction

- ← BOPP Film
- ← Fiberglass Filaments
- ← Synthetic Rubber Based Adhesive

### Features & Benefits

- Abrasion and moisture resistant
- High tensile strength
- Allows printing and illustrations to be seen through tape
- Good shear and initial adhesion
- Good aging

Test	Typical Value		Test Method
	Typical Value	(Metric)	
Product Thickness (Total)	4.0 mils	101.6 microns	PSTC-133
Peel Adhesion	60 oz/in	16.7 N/25mm	PSTC-101
Tensile Strength	100 lb/in	445 N/25mm	PSTC-131
Elongation	3 %	3 %	

Typical values are not intended to be used for specification development. Technical data is believed to be true and accurate; Venture Tape recommends that the purchaser test for fitness of use in all applications.

### Product Configurations

<u>Width (mm)</u>	<u>Length (m)</u>	<u>Rolls/case</u>
18	55	48
24	55	36
